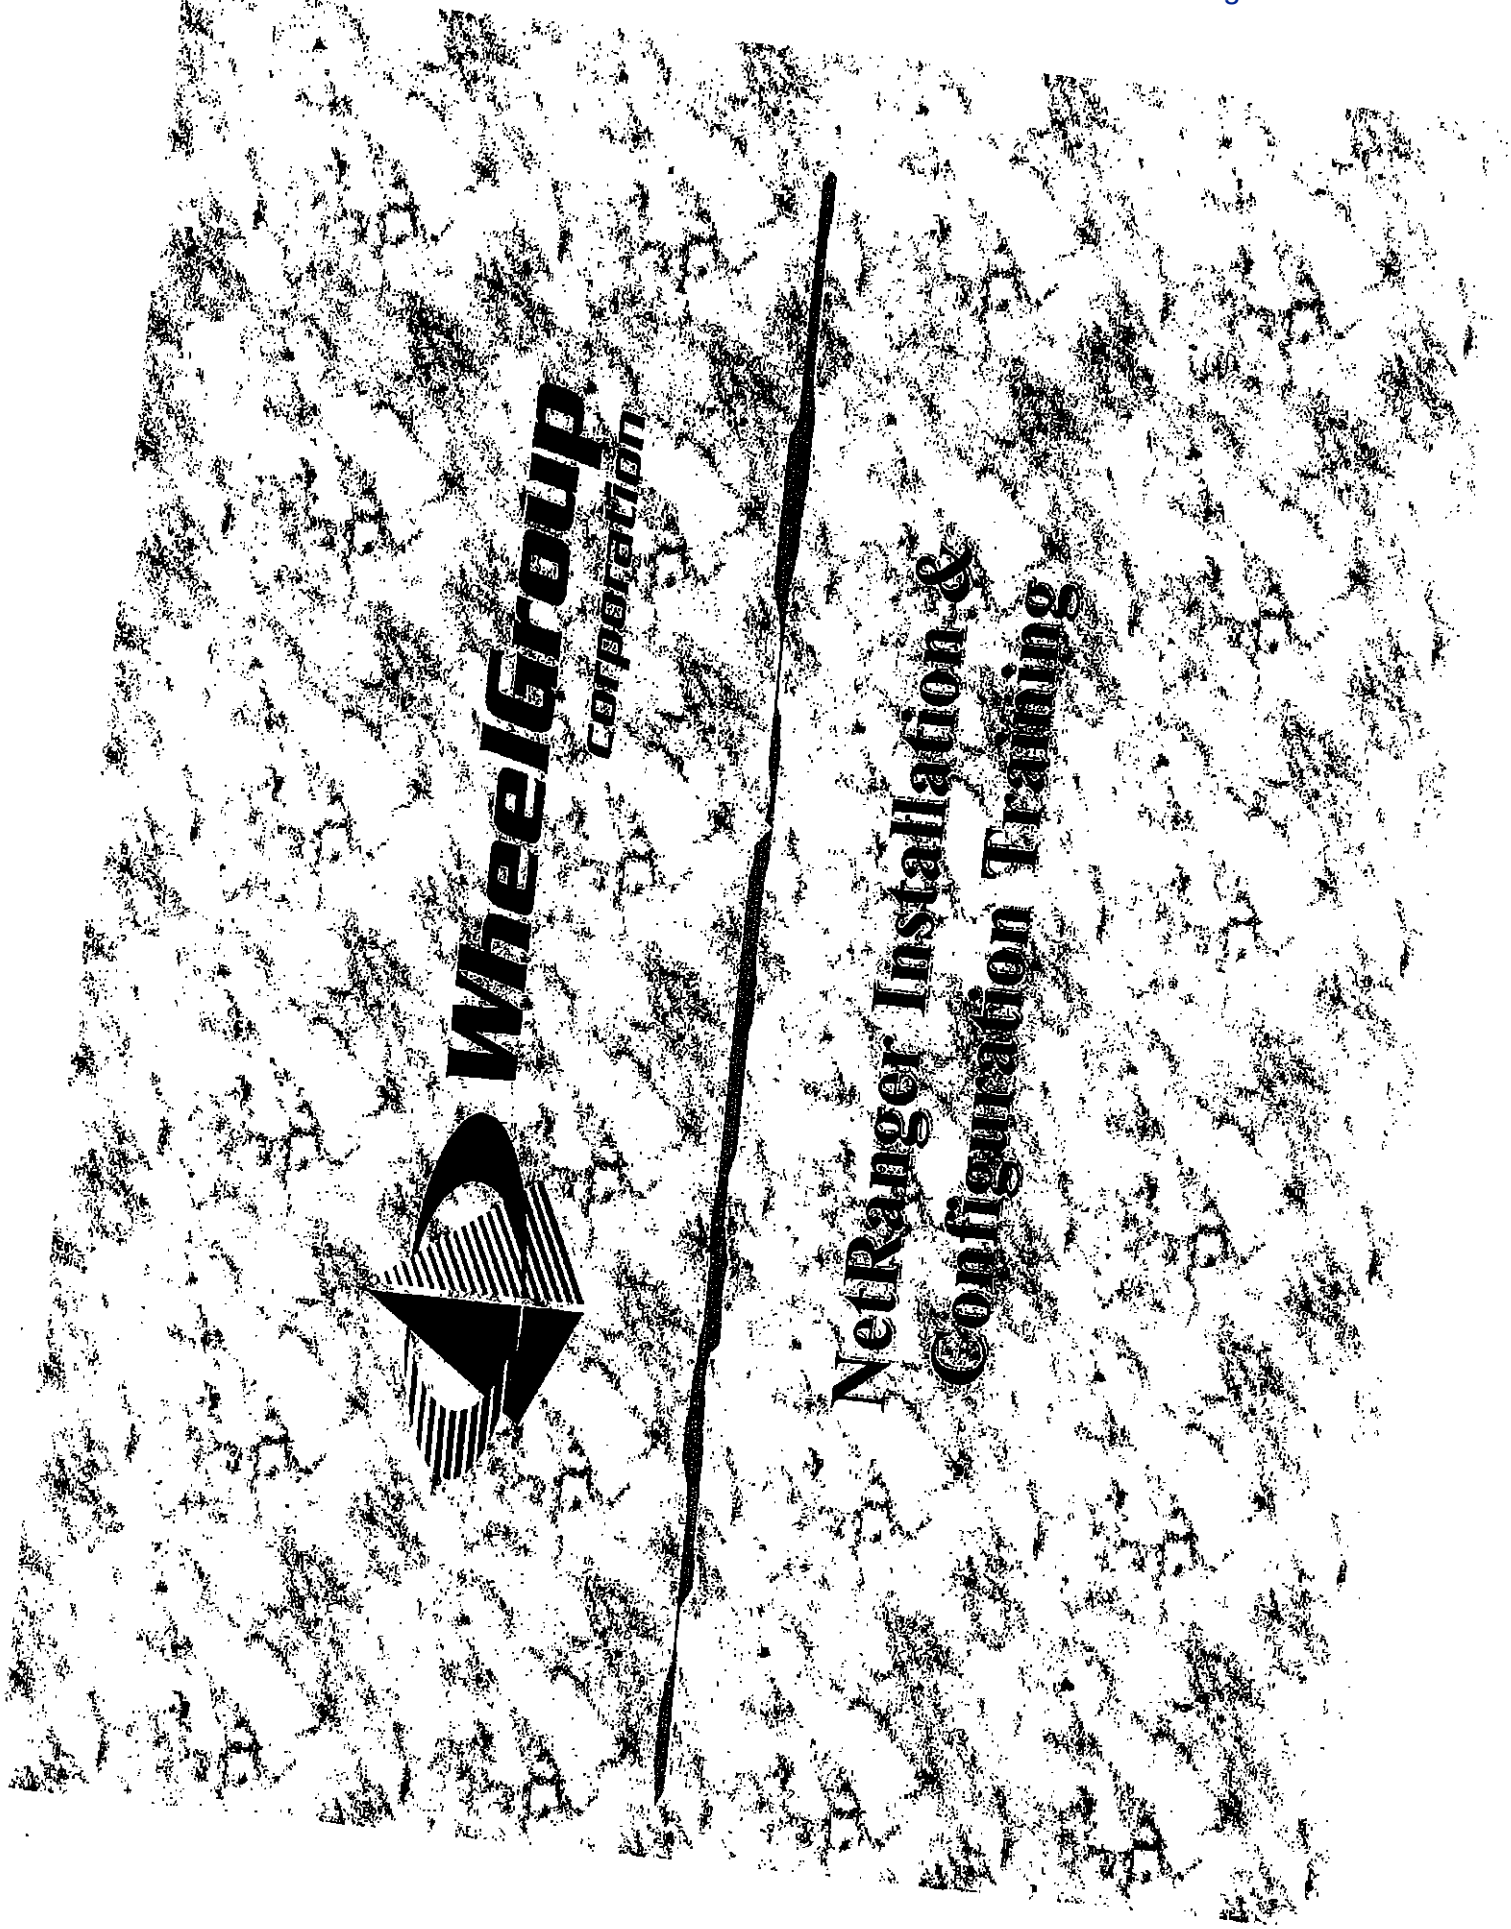
EXHIBIT M



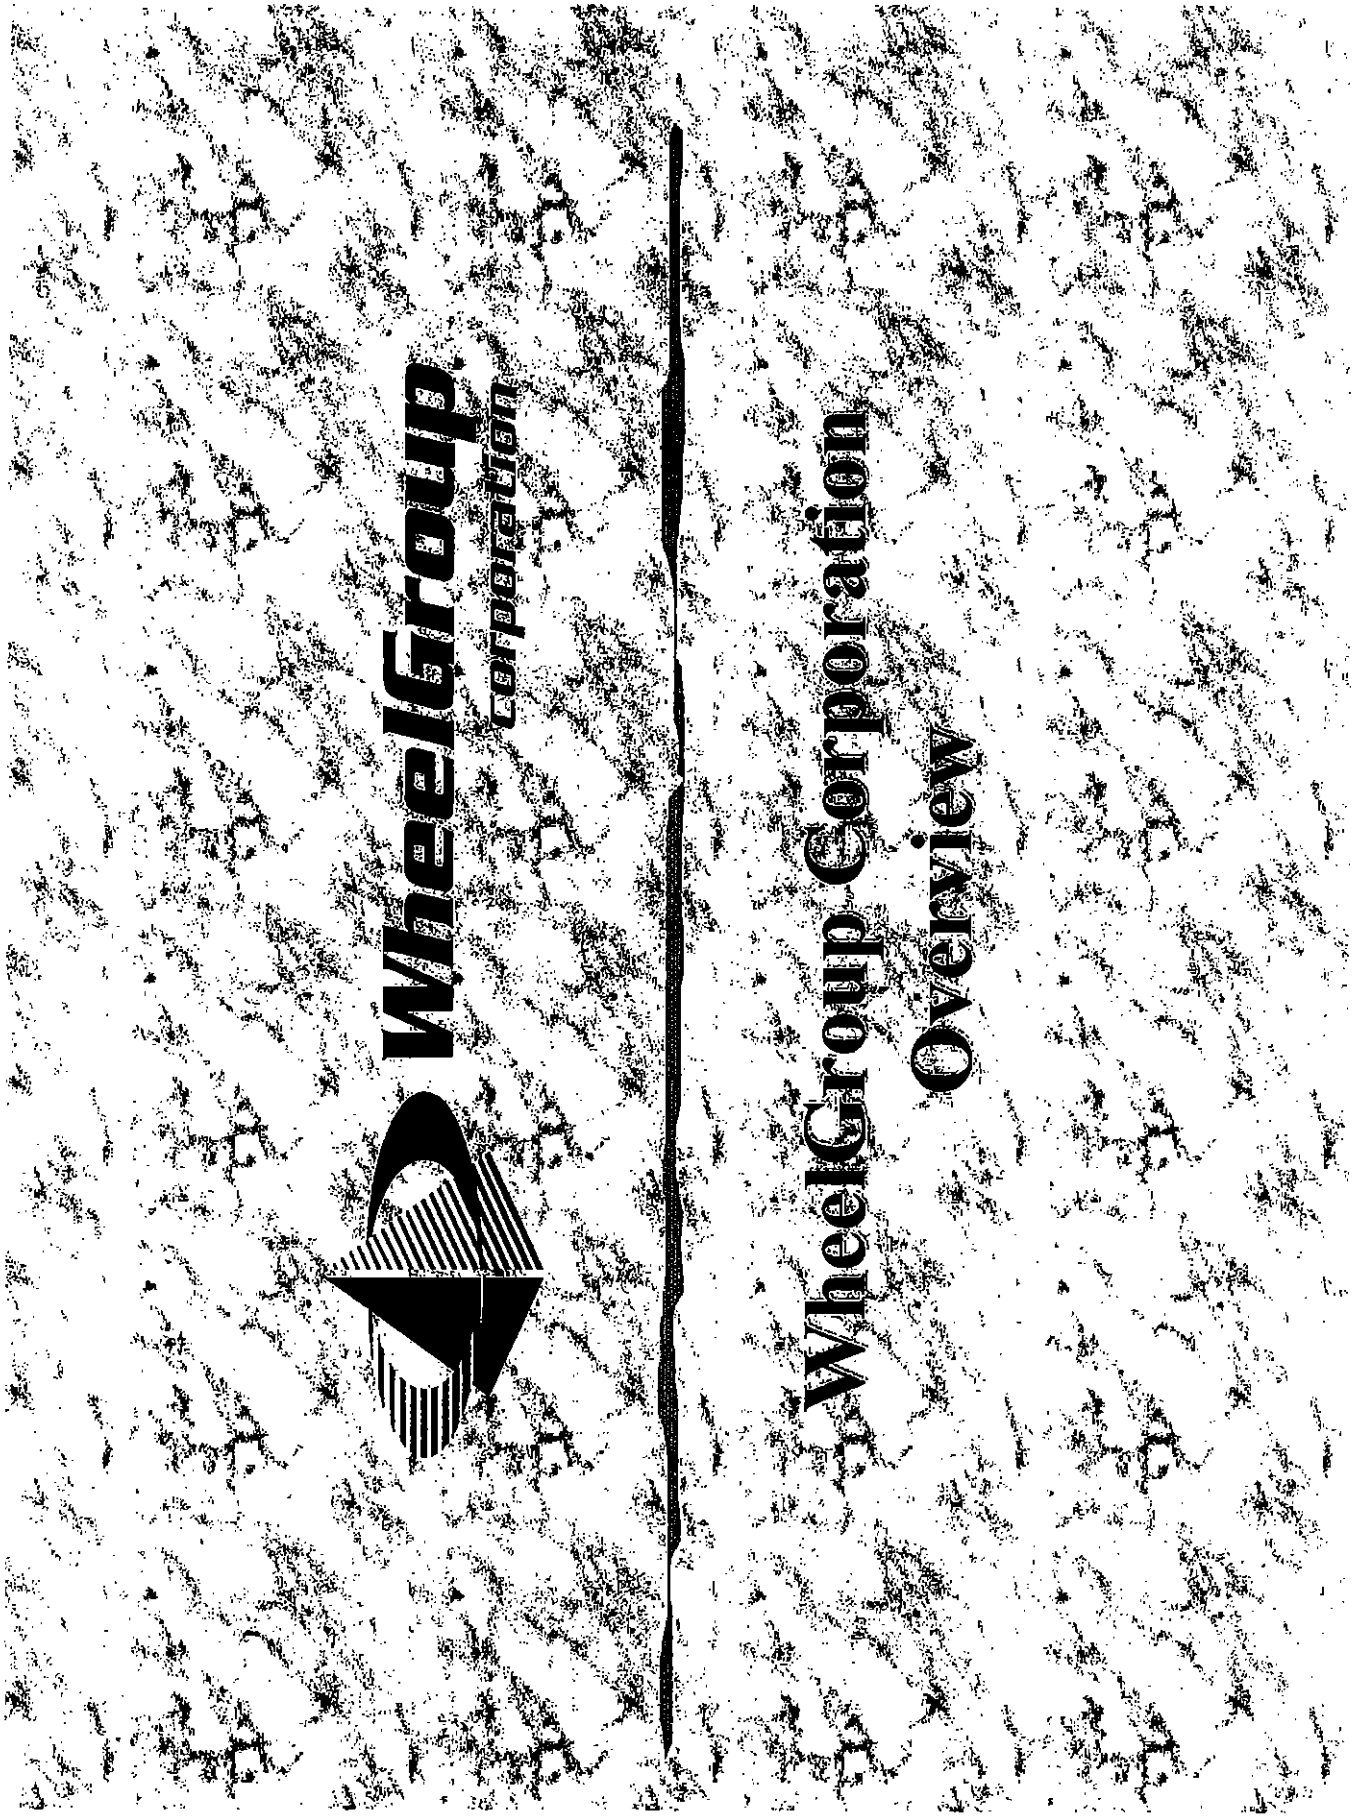
WheelGroup
Corporation
NetRanger Installation &
Configuration Training

Objective

This course is designed to give engineers and administrators the ability to upgrade and configure both NetRanger Sensors and Directors.

Outline

- Company Overview
- Traditional Security Basics
- NetRanger Overview
- NetRanger Demonstration
- Pre-Installation Considerations
- Daemons
- Configuration Files
- Configuration Scripts



WheelGroup Corporation
WheelGroup Corporation
Overview

Company Background

- Founded Oct, 1995
- Privately Funded
- HQ, San Antonio, TX
  - D.C. Office: Vienna, VA (3-5)
  - Silicon Valley (2)
  - Austin, TX (1)
- 37 Employees (3/17/97)
- Products & Services (operations & consulting)
- AFIWC heritage
- 100+ years of IP experience

WheelGroup Functions

- Products
  - R&D, systems integration, manufacturing (NetRanger)
  - Intrusion signature system
  - Sales & manufacturing
  - Tech support
- Operations
  - 24 hours a day, 7 days a week (24x7) real-time monitoring
  - Real time incident response
  - Continuing periodic security assessment/audit
  - Tech support
  - Consulting

WheelGroup Functions (cont.)

Corporate Information Protection Program (CIPP)

- Security Posture Assessment (SPA)
- Intrusion Control & Recovery (ICR)
- Security Architecture Design Review & Verification

Corporation
What's Missing
NO assurance mechanism!
Protection = Prevention + Detection + Response
Advanced techniques,
expert systems, new technologies,
and dedicated 24x7 expertise

WheelGroup corporation

The Solution

- Products and services designed to operate within a cohesive, comprehensive architecture
  - Architecture - Corporate Information Protection Program (CIPP)
  - Continuous (24x7) security operations and management
    - In-house
    - Out-task

Professional Services

- Corporate Information Protection Program (CIPP)
- Security Posture Assessment (SPA)
  - Evaluation of a company's corporate, local, host electronic perimeter security
  - Internal, External, or Both
  - One-time or recurring
  - (remote from NSOC)
- Security Architecture Design, Review & Verification
- Intrusion Control and Recovery
- Net'Vestigator

Net'Vestigator

- Comprehensive, multi-discipline security audit
- "EIM Alliance": NSC; WheelGroup; Guidry Group; Oppenheimer; Wolff, and Donnelly
- NSC: Sales & Marketing, Hardware
- WheelGroup: SPA Intrusion Detection, and Monitoring
- Guidry: Physical Security, PBX, Cellular, Investigation
- Oppenheimer: Caberlaw, Policies, Private Attorney General

Security Operations

- 24x7 Monitoring
  - Comprehensive 24x7 intrusion monitoring, response, and electronic perimeter security management
  - ProWatch Secure
- WARN - WheelGroup Alert & Response Network
  - 24x7 Incident Response & Hotline
  - 24x7 NetRanger Technical Support
- NetRanger Technical Support

ProWatch Secure

- Joint WheelGroup/NetSolve Offering:
  - NetSolve:
    - Sales and Marketing
    - "Quick Look"
    - Installation & Configuration
    - 24x7 "1st Level" Monitoring
  - WheelGroup:
    - Technology (NetRanger)
    - Updates and Improvements
    - Tech Support to NetSolve
    - 24x7 Advanced Problem Resolution - Incident Response

NetRanger Overview

NetRanger Components

- NSX
  - Sensor Device
  - Intrusion Detection
  - Response
- Director
  - Monitoring Device
  - Configuring NSX
- BorderGuard
  - Filtering Device

NSX Configurations

NSX-1000

- *Pentium 166* NSX
- NSC Borderguard 1000
- 2 10BaseT / AUI Ethernet
- 3 WAN Daughtercards
- ISDN
- Up to 512 Kbps

NSX Configurations (cont.)

- NSX 2000
  - *Pentium 166* NSX
  - NSC Borderguard 2000
    - 4 Ethernet
    - 4 WAN
      - 2 Ethernet / 2 WAN
        - 512 Kbps to 10 Mbps Ethernet

NSX Configurations (cont.)

- NSX 5000
  - UltraSPARC NSX
    - NSC ERS/Passport
      - FDDI
      - Ethernet
      - WAN (T1 & T3)
      - (ATM)
      - 10 to 100 Mbps
